

KUCHIPUDI ASHOK REDDY

Contact: +91-8501877820 **Email:** kuchipudiashokreddy@gmail.com

Location: Mundlapadu, N.T.R District, Andhra Pradesh.

I'm a passionate Data Science student with a solid background in analyzing complex data and extracting valuable insights from large datasets. Driven by continuous learning, I aim to address real-world challenges while making a positive impact on society.

Education

B.Tech in Computer Science, Gayatri Vidya Parishad College of Engineering (Autonomous) **Expected 2026**
CGPA: 9.33 Andhra Pradesh, India

Intermediate (MPC), Chaitanya Junior College **2020 - 2022**
Percentage: 97.2 Andhra Pradesh, India

10th Standard (SSC), Z.P.H.S, Mundlapadu **2020**
Percentage: 97.6

Experience

AICTE Internship | Google AIML

- Gained hands-on experience in developing AI/ML models, focusing on real-world problem-solving using Google technologies.
- Worked on heart disease prediction project involving machine learning algorithms, data analysis, and model optimization, enhancing practical AI/ML skills.
- Collaborated with a team to implement scalable solutions, leveraging tools like TensorFlow and Python for high-performance results.

Skills

Programming Languages: C, C++, Python.

Web Technology: HTML, CSS, JavaScript, Node.js.

Tools: PowerBI, Weka, R.

Relevant Coursework: Data Structures, Algorithms, Operating Systems, Machine Learning, Database Management System, Computer Networks.

Soft Skills: Problem Solving, Self-learning, Consistent, Adaptability.

Projects

Sentiment Analysis on Restaurant Reviews

- Developed a machine learning model to classify restaurant reviews as positive, negative, or neutral, effectively analyzing customer feedback.
- Implemented classification techniques to assess key factors influencing customer satisfaction.
- Utilized tools like MultinomialNB for model training and evaluation to enhance prediction accuracy.

Heart disease predictions using Tensorflow technology

- Built a predictive model to assess the risk of heart disease based on patient data using TensorFlow technology.
- Applied deep learning techniques to improve the accuracy of medical predictions, assisting in early diagnosis.
- Optimized model performance through data preprocessing and hyperparameter tuning, ensuring reliable results.

Certifications

-
- Google AI ML Tech camp | **Guvi**.
 - Python for Beginners | **Infosys**.
 - Introduction to Java | **edX**.
 - AICTE internship | **Google AIML**.

Interests

-
- Exploring new things in Data Science field.
 - Web Development.
